DETAILED ACTION

Allowable Subject Matter.

Claims 1, 31, 32 and 48 – 52 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: The Examiner agrees with Applicant's arguments in the amendment of June 6, 2005 where Stafford is clearly drawn to light frequencies of near infrared or ultraviolet regions (abstract). Upon further consideration by the Examiner, the Examiner agrees near infrared and ultraviolet frequencies comprise nano-meter wavelengths (as is well-defined in the art) and not drawn to lower frequencies such as millimeter wavelengths (arguments pages 7 and 8), nor does Stafford teach or suggest millimeter wavelengths since the invention is drawn to optical waves and not RF electromagnetic waves, thus the claims are allowable.
